Work Experience

Peking University Institute

2023/07 - 2024/07 Changsha, China

Web Developer

AI Diagnosis Assistant:

- Background: Developed a chat application in medical field.
- Role: Independently handled the front-end part using React, TypeScript, Tailwind CSS.
- · Achievements:
 - ▶ Implemented multimodal chat (text, images), plugin system, and literature search functionalities.
 - Utilized Server-Sent Events for streaming text output. Managed server state with React Query and implemented optimistic updates to enhanced user experience.
- Impact: Delivered the first MVP within two months, receiving positive feedback within the company.

♀ Project Demo

Data and 3D Visualization Project:

- Background: Developed a comprehensive visualization project.
- Role: Contributed to front-end development and modeling using Three.js, Blender and ECharts.
- Achievements:
 - Implemented smooth camera transitions with **GSAP** and created a custom **smoke shader** for wind-related 3D scenes.
 - ▶ Developed interactive features including line charts, pie charts, world maps, flying lines, and other dynamic visual effects.
- Impact: Enhanced the visualization experience, improving model load times and rendering efficiency.
